Hi,

I hope this cover letter finds you well.

I see that you're looking for a Web Developer/Graphic designer and this is exactly what I specialize in. Talk about a perfect match!

I'll keep this short and we can go into more details when we chat.

Before anything else, I know you're probably curious to see my work. Please have a look at my portfolio:

As you can see from my samples, I enjoy working with clients that take good design seriously.

Before we start working together, I will review your existing design assets, discuss software specifications and interview you about your visual brand. (What can I say, I like to get to know my clients!) I will also explain my process, my design personality and creation timelines.

I'd love to discuss more about this project. I have some availability over the next couple of days. I am providing my contact details:

Skype ID: live:d30ae49e20f27610

Contact Number: +63926 2632734

so that we can schedule a time to discuss the project and how we can get started on your project.

I look forward to our chat. Have a great day!

Thanks

Robin
